

TO ASSIST IN VISUALISING MICRO VESSELS DURING SURGERY

Description: Silicon Strip with 1mm Grid on one side and plain on reverse side, available in Blue, Green and Yellow Colours. Packed in Boxes of 12 pcs.

Application: For use in Micro Surgical Anastomosis of Micro Vessels under a Microscope to allow the surgeon to better visualize the detail of the vessels, being closed.

The Visibility Material can be used either with the Grid side up to give the Surgeon a scale of the vessel alternatively the reverse Plain side can also be used.

The material has a non reflective surface eliminating distractions from theatre lighting and has a non-tacky finish to aid mobilization of the Vessel.

Supplied sterile
in boxes of 12 pieces

1mm Grid one side and
matt finish on reverse.
Size: 50mm x 25mm
